

GRAM GAMES ANNOUNCES NEW FUNDING FROM INVESTORS

ISTANBUL - January 5, 2015 - Mobile gaming studio Gram Games announces a new funding round from current investors. This \$500,000 investment was provided by Hummingbird Ventures and Kaan Karamanci to support the growth of their hit puzzle game 1010!

“With 1010! we have created a casual game that many players have greatly appreciated. With this new funding we intend to make 1010! a global hit and expand on the gameplay mechanics in an adventure sequel” says Mehmet Ecevit, CEO of Gram Games.

1010! is Gram Games’ new puzzle game that was released in September and has already seen over 3.5M installs and 500,000 daily players globally. 1010! is a fun and challenging puzzle game in which players place blocks on a 10-by-10 grid and complete lines. The game is played until no more blocks can be placed. Players try to achieve high scores and beat each others’ scores. The new funding is aimed at supporting the expansion of the game, as well as its sequel, currently in development, **1010! World**.

About Gram Games
